Research Horizons

A forum on leading discovery

GE Healthcare Life Sciences invites you to join a collection of unique sessions on leading your research and discovery process.

Meet invited international and local experts as they share important insights gained from extensive investment in R&D.

There will also be the opportunity for you to participate in interactive Q&A sessions on a range of application areas.

During this networking opportunity, you can leverage the combined expertise of leaders in your field to develop the next stage of your success.

This is a fully catered GE sponsored event, with limited spaces. Express your interest now to receive free registration.

Register here: ResearchHorizons@ge.com

Date: Monday 27th – Tuesday 28th September

Venue: Bio21 Auditorium
Bio21 Molecular Science and Biotechnology Institute
The University of Melbourne
30 Flemington Rd, Parkville VIC 3010

Preliminary Agenda

Day 1 Monday, 27th of September

Presentation series covering applications from biomarker discovery to characterization studies followed by early mixer.

Day 2 Tuesday, 28th of September

Interactive GE facilitated workshop series led across the 4 key areas of Proteomics, Protein-Protein interaction, Protein Characterization and cell culturing and imaging.

Invited speakers include:

Dr Olan Dolezal

Senior Research Scientist

Molecular & Health Technologies
CSIRO, Parkville, Australia

Dr Rita Marouga

Product Manager

Biotechnologies- Proteomics
GE Healthcare, Uppsala, Sweden

Dr Robert Falconer

Senior Research Scientist

NCRIS Biotechnology Products
Australian Institute for Bioengineering
& Nanotechnology
University of Queensland, Australia

Dr Caroline Hick

Research Fellow

Drug Discovery Biology Laboratory
Department of Pharmacology
Monash Institute of Pharmaceutical Sciences,
Australia

Dr Jos Buijs

Senior Scientist

Biotechnologies - R&D
GE Healthcare, Uppsala Sweden

Dr Ann-Marie Modin

Team Leader

Biotechnologies - Lab Purification
GE Healthcare, Uppsala, Sweden
